University of California San Francisco

ADVANCED NEUROIMAGING IN PRION DISEASES

Mercoledì 19 Novembre 2008

Auditorium Pirelli - Viale Piero ed Alberto Pirelli 21 - Milano

10⁰⁰

Giovanni Broggi - Maria Grazia Bruzzone

Istituto Neurologico Carlo Besta (INCB)

WORKSHOP PRESENTATION

10¹⁵

Michael Geschwind

University of California San Francisco (UCSF)

Differential diagnosis of rapidly progressive dementias.

Treatment trial with quinacrine in CJD

11⁰⁰

Fabrizio Tagliavini (INCB)

Creutzfeldt-Jakob disease: clinico-pathological phenotypes and treatment trial with doxycycline

11³⁰

Simona Binelli (INCB)

EEG pattern and evaluation of myoclonus in CJD

12⁰⁰

Daniela Perani (HSR San Raffaele)

In vivo PET molecular imaging in Fatal Familial Insomnia

12³⁰

Dott. Marco Tronchetti Provera

Fondazione Silvio Tronchetti Provera

13⁰⁰ LUNCH

14¹⁵

Marina Grisoli - Elio Maccagnano (INCB)

AFTERNOON SESSION

14³⁰

Alberto Bizzi (INCB)

Accuracy of MRI diffusion in the diagnosis of prion diseases

15⁰⁰

Paolo Vitali (INCB - UCSF)

MRI in genetic prion diseases and early detection of prion diseases

15³⁰

Roland Henry (UCSF)

Quantitative MRI of progression in CJD

16¹⁵

ROUND TABLE AND CONCLUSIVE REMARKS
